Serviceingenieur/in (m/w)

Referenznummer: 10000-1099825354-S

Stellenbeschreibung

NILES-SIMMONS Industrieanlagen GmbH ist ein innovatives, expansives und erfolgreiches Unternehmen des Werkzeugmaschinenbaus. Wir entwickeln und stellen modernste CNC-Drehmaschinen, Dreh-Fräs-Bearbeitungszentren, Vertikal- und Horizontal-Bearbeitungszentren her und liefern weltweit an namhafte Kunden.

Um diesen Erfolgskurs fortzusetzen und die wachsenden Anforderungen unserer Kunden auch zukünftig erfüllen zu können, suchen wir zur Erweiterung unseres Teams ab sofort eine/n:

Field Service Engineer or Service Technician (Mechatronics Technician; m/f) – Commissioning (m/f) for supporting customers in UK (Birmingham)

Tasks:

- Installation and commissioning of machines and manufacturing systems
- Commissioning of external sub-assemblies (tool monitoring, interlinked equipment, measuring stations, measuring probes etc.)
- Adaption of PLC- and NC-programs
- Independent hardware modification
- Performance of customer training
- Servicing tasks for installed machinery (fault-finding – electrical, programmatically, mechanical, fluid technical)
- Servicing of installed products by remote diagnostics
- Execution of mechanical tasks during installation

Professional requirements:

- Master degree, preferably in the fields of electrical engineering or mechanical engineering or service technician having acquired good knowledge of mechanical and control systems
- Preferably professional experience gained over several years
- Excellent knowledge of common computer applications (MS-Office)
- Well-versed in dealing with Siemens controllers (PLC- / NC - programming, fieldbus configuration)
- Very good English knowledge.
- **If possible**, good knowledge of German

Personal requirements:

- Residence in West Midlands
- Analytical thinking and conceptual skills
- Technical competence, assertiveness, team spirit
- Willingness to travel and to work on weekends
- Driving licence (B)
