

Resumen

Título: Senior web developer

Descripción:

We are now looking to strengthen our web development team in Stockholm with a senior web developer. Our web development team is responsible for developing a suite of modular review solutions (API's, widgets and portals) for retailers, brands and consumers worldwide as well as alaTest websites for our international visitors. Our vision is to deliver highly available, scalable, and high performing services. If you are a senior web developer based in Stockholm, creating high quality software, willing to learn new technologies and methodologies and with experience in open source software, we would like to meet you. Responsibilities: Develop clean and modern code using web frameworks (such as jQuery, Kohana, Pylons or similar) Work directly with other Developers, Designers and Product Owners to ensure your code works and looks as designed and specified Stay abreast of the latest technologies with a view to introducing new development techniques and tools that improve alaTest practices Requirements: A Master's or Bachelor's degree in Computer Science or equivalent 5+ years experience with web application development using HTML, CSS, JavaScript, PHP, Python, MySQL or Solr A genuine passion for the web, new technologies, and open source software You must be authorized to work in Sweden Desirable Skills: System administration (Linux servers, Proxmox, Varnish and similar) Cloud computing (Amazon WS, Rackspace or similar) Personal Skills: Driven and result oriented Excellent English skills. Our company language is English. Swedish language skills are not required Experience working in an international and distributed team Please note that our working language is English and it is NOT required that you speak Swedish. The position is a full-time employment, located in our office at Ynglingagatan in central Stockholm. Send your application with a short personal introduction and CV to us as soon as possible to jobs@alat
